Become certified and receive:

1. The Certified Lucitone Digital Print Laboratory logo

2. Images to use in social media to announce certification

3. 16 NBC credit hours (US Only)

To get started, download the Self-Study Syllabus. The Syllabus details the print workflow and steps to complete a full-over-full case, including: print of an upper and lower try-in, print of upper and lower final denture, fuse, cure and finish of the denture.

After the full-over-full sample case is completed, Dentsply Sirona will provide a link to complete a 20-question (multiple choice) exam. To earn certification, you must score at least an 80%.

Ready to take the exam?

Email us at dsdigitaldentures@dentsplysirona.com and include photos of the upper and lower try-in and upper and lower final denture.
